

Report on Faculty Development Training Program

A One day FDP of Hands on LaTeX software

Date: 22rd December, 2015 | Venue: MB 202

This FDP contains two sessions:

The expert session (9:30 am to 12:45pm) was conducted by Prof. Naresh K. Ajudia, Assistant Professor, Department of Mathematics, H & H.B. Institute of Science, Rajkot. In this informative lecture, he explained various aspects, Importance, advantages and awareness of LaTeX software. He provides printed reference materials including softcopies of two books. He inserted LaTeX coding, LaTeX commands, LaTeX symbol, useful packages and terminologies which has great importance in formulae typing. He demonstrates how to solve errors and warning occurs during typing.

The post lunch session (1:30 pm to 4:30 pm) was delivered by Prof. Tapan Trivedi, Assistant Professor, Department of Electrical Engineering, MEFGI, Rajkot. He presented important characteristics, phenomenon and usefulness of LyX software. He explained relationship between LyX and LaTeX software. The formation of complete article using citation tools, use of online library for developing database of citations, placement of floats and article management were major highlights of the session.

I am grateful to MEFGI, management for providing such a good environment for organizing this FDP.
