**Venue: ROGER Motors,  
Rajkot**

**Organized by:**

**Department of Automobile  
Engineering**

## **Basic Information:**

ROGER motors is one of the main Automotive service station in Rajkot. It is situated in Samrat industrial area, Rajkot. The service station area is bigger than normal service station. By its proper and precise services and good customer services it has been a trusted maintenance station for 4 wheelers. They have their other branches in Gujarat's major cities like Baroda, Surat, Ahemdabad and other cities. There are many required machines available by which the service of vehicle can be proper and fast. There is proper safety available for workers. They are following the guide lines given by government for specific area.

## **Outcome of the visit:**

From this visit, we get able to know that how the cars have been given service, how different problems related to car performance can be solved, the practical uses of theory, different machining process related to this area.
