

# **Industrial Visit at Indo-German Tool Room, Ahemdabad**

**Date: January 25, 2016**

**Organized by:**

**Time: 10:00 am to 12:30 pm**

**Department of Automobile Engineering**

**Coordinator:**

**Prof.Nikunj Maheta,**

**MEFGI, Rajkot**

**Venue: Indo-German Tool**

**Room, Ahemdabad**

It has many advanced machine as following:

1. EDM machine
2. CMM machine
3. Types of C.N.C. and Grinding machines
4. Plastic injection mold machine

#### Outcome of the visit:

We came to know about advance technology of this field. We also attended career guidance program which was very informative and useful for us. The faculty have also supported us to learn the process of machines.

#### Basic Information:

Indo-German Tool Room located at Ahemdabad is a Government Of India Non-Profit autonomous society. It is an institute excelling in Tool and Die making and modern production technology. It is also a training centre engaged in production of tools of precision plastic & metal component and also in tool and die making, CAD/CAM & CNC Technology. It permits the use of its resources to industries like precision machining, quality control and CAD-CAM-CAE-RPT services.
